

2023 Prospectus for International Students

Shaanxi Transportation Vocational and Technical College

Shaanxi Transportation Vocational and Technical College is a public higher vocational college organized by the Shaanxi Provincial People's Government, implementing a joint construction mechanism between the Provincial Department of Education and the Provincial Department of Transportation. It is a national high-quality vocational college, the first batch of 100 modern apprenticeship pilot colleges of the Ministry of Education, the Ministry of Education's 1+X certificate system pilot college, an excellent demonstration vocational college in Shaanxi Province, a first-class college in Shaanxi Province, and a construction unit of high-level vocational schools in Shaanxi Province. The school aims to cultivate outstanding high-quality technical and skilled personnel in transportation, and is known as the "cradle of transportation construction and management talents in western China". The school is located in the Xi'an Economic and Technological Development Zone, which is surrounded by water, culture and industry. To the south is the ancient capital city wall, to the north is the Xi'an Municipal Government, to the east is the Daming Palace National Heritage Park, and to the west is the Han Chang'an City Heritage Protection Area. It is the only provincial vocational college whose main campus is in the main urban area of Xi'an. The subway lines 2 and 4 and 9 bus lines around the campus cover the entire urban area of Xi'an. The campus is a great place for learning and living, with birds singing and flowers fragrant, and green trees shaded. The school currently has over 15000 full-time students, with over 1500 continuing education and international students.
